If you file an objection, you must serve a copy of the objection to all parties on the service list found at the end of the Master's Report. The original objection and a certificate of mailing to all parties on the service list must be filed with the Water Court.

If you do not file a timely objection, the Water Court will conclude that you agree with the content of this Master's Report.

**MASTER'S REPORT**

All water right claims that appeared in the Preliminary Decree for Sun River (Basin 41K) were subject to "issue remarks" resulting from pre-decree examination by

the DNRC, objections, and counterobjections. The above-captioned claims received an issue remark during the DNRC's review of the claims.

Claims 41K 56694-00 and 41K 56697-00 were consolidated into Case 41K-0232-R-2023 and an Order Setting Filing Deadline was issued by the Water Court requesting any additional information needed to resolve the issue remarks.

### FINDINGS OF FACT

1. Each of the claims received the following substantive issue remark:

AN AMENDMENT WAS SUBMITTED ON 08/12/2020 REQUESTING TO AMEND THE FLOW RATE. THE AMENDMENT WAS NOT PROCESSED. THE AMENDMENT WILL BE REVIEWED AFTER THE ISSUANCE OF THE PRELIMINARY DECREE.

2. On May 24, 2023, Claimant United States Department of Agriculture, Forest Service ("Forest Service") filed a *Response* which reiterated that the previously filed amendment resolved the issue remark and brought the claims into historical conformity. The *Response* states that correction to the flow rate is necessary to correct a decimal error in the original filing. The *Response* included attachments of the amendments requesting the following modifications to the claims:

### 41K 56694-00 and 41K 56697-00.

8. Flow Rate Claimed: 5.0

- ☐ cubic feet per second  
☒ gallons per minute  
☐ miner's inches

### PRINCIPLES OF LAW

1. A properly filed Statement of Claim for an existing water right is prima facie proof of its content. Section 85-2-227, MCA; Rule 10, W.R.Adj.R.

2. Prima facie proof may be contradicted and overcome by a preponderance of the evidence. Rule 19, W.R.Adj.R.

3. A preponderance of the evidence is evidence that shows a fact is “more probable than not.” *Hohenlohe v. State*, 2010 MT 203, ¶ 33, 357 Mont. 438, 240 P.3d 628.

4. Section 85-2-248(2), MCA, requires that the Water Court resolve all issue remarks that are not resolved through the objection process. *See also* Rule 7, W.R.Adj.R.

### CONCLUSIONS OF LAW

1. The proposed modifications contained in the Forest Service’s *Response* and previously filed *Motion to Amend* resolve the issue remarks appearing on the claims. Based on the information contained in the Forest Service’s *Response*, along with the information contained in the attached *Motion to Amend*, the claims should be modified as described in Finding of Fact No. 2. The modification resolves the issue remark, and the issue remarks should be removed from the claims.

2. The requested amendment and modification do not have the reasonable potential to adversely affect other water rights as they are corrections to the abstracts which do not make any change to the actual historical use of the claimed right on the ground. Notice by publication of this amendment is not required.

### RECOMMENDATIONS

Based on the foregoing Findings of Fact and Conclusions of Law, this Master recommends that the Court adopt the changes as outlined above.

Post decree abstracts of the water right claims reflecting the recommended changes are attached to this Report.
